| Symnasiums Swimming pools Sports fields □ Tennis, basketball, volleyball or other sport-specific courts □ Parks, Ritness trails, and bike paths □ Other multi-purpose facilities that have physical recreation activity as the primary rationale (please specify:) Park Playground  8. Project Type □ Rehabilitation and/or repair of existing recreational infrastructure New construction that is either adding to or replacing existing recreational infrastructure assets or capacity 9. Project Description  Enhancement of the existing playground to a modern multi-lask structure.  10. Provide a rationale describing the specific problems or objectives this project will address.  SERVICE IMPROVEMENT AND ENHANCEMENT - This project will replace the current low play value/less challenging playground equipment with modern multi-lask structures that will provide greater physical challenges and better social interaction.  This project is part of a long-term city-wide initiative to maintain and enhance Parks, Forestry and Recreation's 850+playground inventory.  11. Will the project improve the energy efficiency of the asset?  11. Will the project improve the energy efficiency of the asset?  12. Will the project improve accessibility to the asset?  13. Will the project improve accessibility to the asset?  14. Will the project improve accessibility to the asset?  15. Will the project improve accessibility to the asset?  16. Provide a rationale (Day Note)  17. Will the project improve accessibility to the asset?  18. Will the project timprove accessibility to the asset?  19. Ves No Day Note of the project will disabilities and amenities are designed to incorporate the council-approved "City of Toronto Accessibility Design Guidelines" (ADG) and the Ontario Disabilities Act (ODA) to optimize independent access to persons with disabilities and to improve access for all.  13. Will the project extend the life of the asset?  14. Will the project have a positive impact on public health and safety?  Yes No Day No Day No Day No Day No Day No Day   | The state of the s |                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                   |                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                       |

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |                                       |
| Sports fields  Tennis, basketball, volleyball or other sport-specific courts  Parks, fitness trails, and bike paths  Other multi-purpose facilities that have physical recreation activity as the primary rationale (please specify:) Park Playground  Park Playground  Park Playground  Project Type  Rehabilitation and/or repair of existing recreational infrastructure New construction that is either adding to or replacing existing recreational infrastructure assets or capacity  Project Description  Enhancement of the existing playground to a modern multi-task structure.  10. Provide a rationale describing the specific problems or objectives this project will address.  SERVICE IMPROVEMENT AND ENHANCEMENT - This project will replace the current low play value/less challenging playground equipment with modern multi-task structures that will provide greater physical challenges and better social interaction.  This project is part of a long-term city-wide initiative to maintain and enhance Parks, Forestry and Recreation's 850+playground inventory.  11. Will the project improve the energy efficiency of the asset?  If yes, describe how the project will have a positive impact on the environment by reducing energy consumption, water consumption and/or waste.  This service improvement project is not related to energy efficiency.  12. Will the project improve accessibility to the asset?  If yes, describe how the project increases public access to, and participation in, the facility and/or activity.  The construction of new Parks, Forestry and Recreation facilities and amenities are designed to incorporate the council-approved "City of Toronto Accessibility Design Guidelines" (ADG) and the Ontario Disabilities Act (ODA) to optimize independent access to persons with disabilities and to improve access for all.  13. Will the project extend the life of the asset?  If yes, describe how the project will extend the life of the infrastructure.  This is a new facility and will be maintained in the future as part of the state of good repa  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |                                       |
| No ther multi-purpose facilities that have physical recreation activity as the primary rationale (please specify:) Park Playground 8. Project Type Rehabilitation and/or repair of existing recreational infrastructure New construction that is either adding to or replacing existing recreational infrastructure assets or capacity 9. Project Description Enhancement of the existing playground to a modern multi-task structure.  10. Provide a rationale describing the specific problems or objectives this project will address.  SERVICE IMPROVEMENT AND ENHANCEMENT - This project will replace the current low play value/less challenging playground equipment with modern multi-task structures that will provide greater physical challenges and better social interaction.  This project is part of a long-term city-wide initiative to maintain and enhance Parks, Forestry and Recreation's 850+playground inventory.  11. Will the project improve the energy efficiency of the asset?  13. Will the project improve the energy efficiency of the asset?  14. Will the project improve accessibility to the asset?  15. Yes No 16. This service improvement project is not related to energy efficiency.  16. Will the project improve accessibility to the asset?  17. Yes No 17. The construction of new Parks, Forestry and Recreation facilities and amenities are designed to incorporate the council-approved "City of Toronto Accessibility Design Guidelines" (ADG) and the Ontario Disabilities Act (ODA) to optimize independent access to persons with disabilities and to improve access for all.  13. Will the project extend the life of the asset?  14. Yes No 17. Yes No 18. No 19. Yes No 19. Yes, describe how the project will extend the life of the infrastructure.  15. Yes No 19. No 19. Yes No 19. Yes No 19. Yes No 19. Yes No 19. Yes, describe how the project will extend the life of the infrastructure.                                                                                                                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                   |                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                       |
| Park Playground  8. Project Type  Rehabilitation and/or repair of existing recreational infrastructure  New construction that is either adding to or replacing existing recreational infrastructure assets or capacity  9. Project Description  Enhancement of the existing playground to a modern multi-task structure.  10. Provide a rationale describing the specific problems or objectives this project will address.  SERVICE IMPROVEMENT AND ENHANCEMENT - This project will replace the current low play value/less challenging playground equipment with modern multi-task structures that will provide greater physical challenges and better social interaction.  This project is part of a long-term city-wide initiative to maintain and enhance Parks, Forestry and Recreation's 850+playground inventory.  11. Will the project improve the energy efficiency of the asset?  11. Will the project improve the energy efficiency of the asset?  12. Will the project improve accessibility to the asset?  13. Will the project improve accessibility to the asset?  14. Will the project improve accessibility to the asset?  15. Will the project improve accessibility to the asset?  16. Yes Social No.  17. The construction of new Parks, Forestry and Recreation facilities and amenities are designed to incorporate the council-approved "City of Toronto Accessibility Design Guidelines" (ADG) and the Ontario Disabilities Act (ODA) to optimize independent access to persons with disabilities and to improve access for all.  13. Will the project extend the life of the asset?  14. Yes No.  15. Yes No.  16. Yes No.  17. This is a new facility and will be maintained in the future as part of the state of good repair program in order to get the maximum life expectancy this facility is able to provide.                                                                                                                                                                                                                                                                                | Parks, fitness trails, and bike paths                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                   |                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                       |
| Rehabilitation and/or repair of existing recreational infrastructure   New construction that is either adding to or replacing existing recreational infrastructure assets or capacity   Project Description   Enhancement of the existing playground to a modern multi-task structure.    10. Provide a rationale describing the specific problems or objectives this project will address.   SERVICE IMPROVEMENT AND ENHANCEMENT - This project will replace the current low play value/less challenging playground equipment with modern multi-task structures that will provide greater physical challenges and better social interaction.  This project is part of a long-term city-wide initiative to maintain and enhance Parks, Forestry and Recreation's 850+playground inventory.    11. Will the project improve the energy efficiency of the asset?                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |                                       |
| Rehabilitation and/or repair of existing recreational infrastructure  New construction that is either adding to or replacing existing recreational infrastructure assets or capacity  Project Description  Enhancement of the existing playground to a modern multi-task structure.  10. Provide a rationale describing the specific problems or objectives this project will address.  SERVICE IMPROVEMENT AND ENHANCEMENT - This project will replace the current low play value/less challenging playground equipment with modern multi-task structures that will provide greater physical challenges and better social interaction.  This project is part of a long-term city-wide initiative to maintain and enhance Parks, Forestry and Recreation's 850+ playground inventory.  11. Will the project improve the energy efficiency of the asset?  If yes, describe how the project will have a positive impact on the environment by reducing energy consumption, water consumption and/or waste.  This service improvement project is not related to energy efficiency.  12. Will the project improve accessibility to the asset?  The construction of new Parks, Forestry and Recreation facilities and amenities are designed to incorporate the council-approved "City of Toronto Accessibility Design Guidelines" (ADG) and the Ontario Disabilities Act (ODA) to optimize independent access to persons with disabilities and to improve access for all.  13. Will the project extend the life of the asset?  If yes, describe how the project will extend the life of the infrastructure.  This is a new facility and will be maintained in the future as part of the state of good repair program in order to get the maximum life expectancy this facility is able to provide.                                                                                                                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |                                       |
| New construction that is either adding to or replacing existing recreational infrastructure assets or capacity  9. Project Description  Enhancement of the existing playground to a modern multi-task structure.  10. Provide a rationale describing the specific problems or objectives this project will address.  SERVICE IMPROVEMENT AND ENHANCEMENT - This project will replace the current low play value/less challenging playground equipment with modern multi-task structures that will provide greater physical challenges and better social interaction.  This project is part of a long-term city-wide initiative to maintain and enhance Parks, Forestry and Recreation's 850+playground inventory.  11. Will the project improve the energy efficiency of the asset?  11. Will the project improve the energy efficiency of the asset?  12. Will the project improve accessibility to the asset?  13. Will the project improve accessibility to the asset?  14. Will the project improve accessibility to the asset?  15. Will the project improve accessibility to the asset?  16. Will the project improve accessibility to the asset?  17. Will the project improve accessibility to the asset?  18. Will the project improve accessibility Design Guidelines' (ADG) and the Ontario Disabilities Act (ODA) to optimize independent access to persons with disabilities and to improve access for all.  18. Will the project extend the life of the asset?  19. Yes No   19. Yes No   19. Yes No   10. Will the project extend the life of the asset?  19. Yes No   10. Will the project extend the life of the asset?  19. Yes No   10. Will the project extend the life of the asset?  10. Will the project will extend the life of the infrastructure.  11. Will the project have a positive impact on public health and safety?  12. Will the project have a positive impact on public health and safety?                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                       |
| Enhancement of the existing playground to a modern multi-task structure.  10. Provide a rationale describing the specific problems or objectives this project will address.  SERVICE IMPROVEMENT AND ENHANCEMENT - This project will replace the current low play value/less challenging playground equipment with modern multi-task structures that will provide greater physical challenges and better social interaction.  This project is part of a long-term city-wide initiative to maintain and enhance Parks, Forestry and Recreation's 850+ playground inventory.  11. Will the project improve the energy efficiency of the asset?  If yes, describe how the project will have a positive impact on the environment by reducing energy consumption, water consumption and/or waste.  This service improvement project is not related to energy efficiency.  12. Will the project improve accessibility to the asset?  If yes, describe how the project increases public access to, and participation in, the facility and/or activity.  The construction of new Parks, Forestry and Recreation facilities and amenities are designed to incorporate the council-approved "City of Toronto Accessibility Design Guidelines" (ADG) and the Ontario Disabilities Act (ODA) to optimize independent access to persons with disabilities and to improve access for all.  13. Will the project extend the life of the asset?  If yes, describe how the project will extend the life of the infrastructure.  This is a new facility and will be maintained in the future as part of the state of good repair program in order to get the maximum life expectancy this facility is able to provide.                                                                                                                                                                                                                                                                                                                                                                                                                          |                                                                                                         | tructure assets   | or cap                                 | acity                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                                       |
| 10. Provide a rationale describing the specific problems or objectives this project will address.  SERVICE IMPROVEMENT AND ENHANCEMENT - This project will replace the current low play value/less challenging playground equipment with modern multi-task structures that will provide greater physical challenges and better social interaction.  This project is part of a long-term city-wide initiative to maintain and enhance Parks, Forestry and Recreation's 850+ playground inventory.  11. Will the project improve the energy efficiency of the asset?  If yes, describe how the project will have a positive impact on the environment by reducing energy consumption, water consumption and/or waste.  This service improvement project is not related to energy efficiency.  12. Will the project improve accessibility to the asset?  If yes, describe how the project increases public access to, and participation in, the facility and/or activity.  The construction of new Parks, Forestry and Recreation facilities and amenities are designed to incorporate the council-approved "City of Toronto Accessibility Design Guidelines" (ADG) and the Ontario Disabilities Act (ODA) to optimize independent access to persons with disabilities and to improve access for all.  13. Will the project extend the life of the asset?  If yes, describe how the project will extend the life of the infrastructure.  This is a new facility and will be maintained in the future as part of the state of good repair program in order to get the maximum life expectancy this facility is able to provide.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | 9. Project Description                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                   |                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                       |
| SERVICE IMPROVEMENT AND ENHANCEMENT - This project will replace the current low play value/less challenging playground equipment with modern multi-task structures that will provide greater physical challenges and better social interaction.  This project is part of a long-term city-wide initiative to maintain and enhance Parks, Forestry and Recreation's 850+ playground inventory.  11. Will the project improve the energy efficiency of the asset?  If yes, describe how the project will have a positive impact on the environment by reducing energy consumption, water consumption and/or waste.  This service improvement project is not related to energy efficiency.  12. Will the project improve accessibility to the asset?  If yes, describe how the project increases public access to, and participation in, the facility and/or activity.  The construction of new Parks, Forestry and Recreation facilities and amenities are designed to incorporate the council-approved "City of Toronto Accessibility Design Guidelines" (ADG) and the Ontario Disabilities Act (ODA) to optimize independent access to persons with disabilities and to improve access for all.  13. Will the project extend the life of the asset?  If yes, describe how the project will extend the life of the infrastructure.  This is a new facility and will be maintained in the future as part of the state of good repair program in order to get the maximum life expectancy this facility is able to provide.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                   |                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                       |
| SERVICE IMPROVEMENT AND ENHANCEMENT - This project will replace the current low play value/less challenging playground equipment with modern multi-task structures that will provide greater physical challenges and better social interaction.  This project is part of a long-term city-wide initiative to maintain and enhance Parks, Forestry and Recreation's 850+ playground inventory.  11. Will the project improve the energy efficiency of the asset?  If yes, describe how the project will have a positive impact on the environment by reducing energy consumption, water consumption and/or waste.  This service improvement project is not related to energy efficiency.  12. Will the project improve accessibility to the asset?  If yes, describe how the project increases public access to, and participation in, the facility and/or activity.  The construction of new Parks, Forestry and Recreation facilities and amenities are designed to incorporate the council-approved "City of Toronto Accessibility Design Guidelines" (ADG) and the Ontario Disabilities Act (ODA) to optimize independent access to persons with disabilities and to improve access for all.  13. Will the project extend the life of the asset?  If yes, describe how the project will extend the life of the infrastructure.  This is a new facility and will be maintained in the future as part of the state of good repair program in order to get the maximum life expectancy this facility is able to provide.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                   |                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                       |
| SERVICE IMPROVEMENT AND ENHANCEMENT - This project will replace the current low play value/less challenging playground equipment with modern multi-task structures that will provide greater physical challenges and better social interaction.  This project is part of a long-term city-wide initiative to maintain and enhance Parks, Forestry and Recreation's 850+ playground inventory.  11. Will the project improve the energy efficiency of the asset?  If yes, describe how the project will have a positive impact on the environment by reducing energy consumption, water consumption and/or waste.  This service improvement project is not related to energy efficiency.  12. Will the project improve accessibility to the asset?  If yes, describe how the project increases public access to, and participation in, the facility and/or activity.  The construction of new Parks, Forestry and Recreation facilities and amenities are designed to incorporate the council-approved "City of Toronto Accessibility Design Guidelines" (ADG) and the Ontario Disabilities Act (ODA) to optimize independent access to persons with disabilities and to improve access for all.  13. Will the project extend the life of the asset?  If yes, describe how the project will extend the life of the infrastructure.  This is a new facility and will be maintained in the future as part of the state of good repair program in order to get the maximum life expectancy this facility is able to provide.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                                       |
| SERVICE IMPROVEMENT AND ENHANCEMENT - This project will replace the current low play value/less challenging playground equipment with modern multi-task structures that will provide greater physical challenges and better social interaction.  This project is part of a long-term city-wide initiative to maintain and enhance Parks, Forestry and Recreation's 850+ playground inventory.  11. Will the project improve the energy efficiency of the asset?  If yes, describe how the project will have a positive impact on the environment by reducing energy consumption, water consumption and/or waste.  This service improvement project is not related to energy efficiency.  12. Will the project improve accessibility to the asset?  If yes, describe how the project increases public access to, and participation in, the facility and/or activity.  The construction of new Parks, Forestry and Recreation facilities and amenities are designed to incorporate the council-approved "City of Toronto Accessibility Design Guidelines" (ADG) and the Ontario Disabilities Act (ODA) to optimize independent access to persons with disabilities and to improve access for all.  13. Will the project extend the life of the asset?  If yes, describe how the project will extend the life of the infrastructure.  This is a new facility and will be maintained in the future as part of the state of good repair program in order to get the maximum life expectancy this facility is able to provide.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | 10.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | 17.77                                 |
| better social interaction.  This project is part of a long-term city-wide initiative to maintain and enhance Parks, Forestry and Recreation's 850+ playground inventory.  11. Will the project improve the energy efficiency of the asset?  If yes, describe how the project will have a positive impact on the environment by reducing energy consumption, water consumption and/or waste.  This service improvement project is not related to energy efficiency.  12. Will the project improve accessibility to the asset?  If yes, describe how the project increases public access to, and participation in, the facility and/or activity.  The construction of new Parks, Forestry and Recreation facilities and amenities are designed to incorporate the council-approved "City of Toronto Accessibility Design Guidelines" (ADG) and the Ontario Disabilities Act (ODA) to optimize independent access to persons with disabilities and to improve access for all.  13. Will the project extend the life of the asset?  If yes, describe how the project will extend the life of the infrastructure.  This is a new facility and will be maintained in the future as part of the state of good repair program in order to get the maximum life expectancy this facility is able to provide.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | SERVICE IMPROVEMENT AND ENHANCEMENT                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | Γ - | This project is part of a long-term city-wide initiative to maintain and enhance Parks, Forestry and Recreation's 850+ playground inventory.  11. Will the project improve the energy efficiency of the asset?  If yes, describe how the project will have a positive impact on the environment by reducing energy consumption, water consumption and/or waste.  This service improvement project is not related to energy efficiency.  12. Will the project improve accessibility to the asset?  If yes, describe how the project increases public access to, and participation in, the facility and/or activity.  The construction of new Parks, Forestry and Recreation facilities and amenities are designed to incorporate the council-approved "City of Toronto Accessibility Design Guidelines" (ADG) and the Ontario Disabilities Act (ODA) to optimize independent access to persons with disabilities and to improve access for all.  13. Will the project extend the life of the asset?  If yes, describe how the project will extend the life of the infrastructure.  This is a new facility and will be maintained in the future as part of the state of good repair program in order to get the maximum life expectancy this facility is able to provide. | 11. Will the project improve the energy efficiency of the asset?  If yes, describe how the project will have a positive impact on the environment by reducing energy consumption, water consumption and/or waste.  This service improvement project is not related to energy efficiency.  12. Will the project improve accessibility to the asset?  If yes, describe how the project increases public access to, and participation in, the facility and/or activity.  The construction of new Parks, Forestry and Recreation facilities and amenities are designed to incorporate the council-approved "City of Toronto Accessibility Design Guidelines" (ADG) and the Ontario Disabilities Act (ODA) to optimize independent access to persons with disabilities and to improve access for all.  13. Will the project extend the life of the asset?  If yes, describe how the project will extend the life of the infrastructure.  This is a new facility and will be maintained in the future as part of the state of good repair program in order to get the maximum life expectancy this facility is able to provide.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |                                       |
| 11. Will the project improve the energy efficiency of the asset?  If yes, describe how the project will have a positive impact on the environment by reducing energy consumption, water consumption and/or waste.  This service improvement project is not related to energy efficiency.  12. Will the project improve accessibility to the asset?  If yes, describe how the project increases public access to, and participation in, the facility and/or activity.  The construction of new Parks, Forestry and Recreation facilities and amenities are designed to incorporate the council-approved "City of Toronto Accessibility Design Guidelines" (ADG) and the Ontario Disabilities Act (ODA) to optimize independent access to persons with disabilities and to improve access for all.  13. Will the project extend the life of the asset?  If yes, describe how the project will extend the life of the infrastructure.  This is a new facility and will be maintained in the future as part of the state of good repair program in order to get the maximum life expectancy this facility is able to provide.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | 50+                                   |
| If yes, describe how the project will have a positive impact on the environment by reducing energy consumption, water consumption and/or waste.  This service improvement project is not related to energy efficiency.  12. Will the project improve accessibility to the asset?  If yes, describe how the project increases public access to, and participation in, the facility and/or activity.  The construction of new Parks, Forestry and Recreation facilities and amenities are designed to incorporate the council-approved "City of Toronto Accessibility Design Guidelines" (ADG) and the Ontario Disabilities Act (ODA) to optimize independent access to persons with disabilities and to improve access for all.  13. Will the project extend the life of the asset?  If yes, describe how the project will extend the life of the infrastructure.  This is a new facility and will be maintained in the future as part of the state of good repair program in order to get the maximum life expectancy this facility is able to provide.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | playground inventory.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |                                     |                                                                                                                            |                   |                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                       |
| If yes, describe how the project will have a positive impact on the environment by reducing energy consumption, water consumption and/or waste.  This service improvement project is not related to energy efficiency.  12. Will the project improve accessibility to the asset?  If yes, describe how the project increases public access to, and participation in, the facility and/or activity.  The construction of new Parks, Forestry and Recreation facilities and amenities are designed to incorporate the council-approved "City of Toronto Accessibility Design Guidelines" (ADG) and the Ontario Disabilities Act (ODA) to optimize independent access to persons with disabilities and to improve access for all.  13. Will the project extend the life of the asset?  If yes, describe how the project will extend the life of the infrastructure.  This is a new facility and will be maintained in the future as part of the state of good repair program in order to get the maximum life expectancy this facility is able to provide.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                   |                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                       |
| If yes, describe how the project will have a positive impact on the environment by reducing energy consumption, water consumption and/or waste.  This service improvement project is not related to energy efficiency.  12. Will the project improve accessibility to the asset?  If yes, describe how the project increases public access to, and participation in, the facility and/or activity.  The construction of new Parks, Forestry and Recreation facilities and amenities are designed to incorporate the council-approved "City of Toronto Accessibility Design Guidelines" (ADG) and the Ontario Disabilities Act (ODA) to optimize independent access to persons with disabilities and to improve access for all.  13. Will the project extend the life of the asset?  If yes, describe how the project will extend the life of the infrastructure.  This is a new facility and will be maintained in the future as part of the state of good repair program in order to get the maximum life expectancy this facility is able to provide.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | 11. | This service improvement project is not related to energy efficiency.  12. Will the project improve accessibility to the asset?  If yes, describe how the project increases public access to, and participation in, the facility and/or activity.  The construction of new Parks, Forestry and Recreation facilities and amenities are designed to incorporate the council-approved "City of Toronto Accessibility Design Guidelines" (ADG) and the Ontario Disabilities Act (ODA) to optimize independent access to persons with disabilities and to improve access for all.  13. Will the project extend the life of the asset?  If yes, describe how the project will extend the life of the infrastructure.  This is a new facility and will be maintained in the future as part of the state of good repair program in order to get the maximum life expectancy this facility is able to provide.      |
| 12. Will the project improve accessibility to the asset?  If yes, describe how the project increases public access to, and participation in, the facility and/or activity.  The construction of new Parks, Forestry and Recreation facilities and amenities are designed to incorporate the council-approved "City of Toronto Accessibility Design Guidelines" (ADG) and the Ontario Disabilities Act (ODA) to optimize independent access to persons with disabilities and to improve access for all.  13. Will the project extend the life of the asset?  If yes, describe how the project will extend the life of the infrastructure.  This is a new facility and will be maintained in the future as part of the state of good repair program in order to get the maximum life expectancy this facility is able to provide.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                       | · · · · · · · · · · · · · · · · · · · |
| If yes, describe how the project increases public access to, and participation in, the facility and/or activity.  The construction of new Parks, Forestry and Recreation facilities and amenities are designed to incorporate the council-approved "City of Toronto Accessibility Design Guidelines" (ADG) and the Ontario Disabilities Act (ODA) to optimize independent access to persons with disabilities and to improve access for all.  13. Will the project extend the life of the asset?  If yes, describe how the project will extend the life of the infrastructure.  This is a new facility and will be maintained in the future as part of the state of good repair program in order to get the maximum life expectancy this facility is able to provide.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |                                       |
| If yes, describe how the project increases public access to, and participation in, the facility and/or activity.  The construction of new Parks, Forestry and Recreation facilities and amenities are designed to incorporate the council-approved "City of Toronto Accessibility Design Guidelines" (ADG) and the Ontario Disabilities Act (ODA) to optimize independent access to persons with disabilities and to improve access for all.  13. Will the project extend the life of the asset?  If yes, describe how the project will extend the life of the infrastructure.  This is a new facility and will be maintained in the future as part of the state of good repair program in order to get the maximum life expectancy this facility is able to provide.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |                                       |
| If yes, describe how the project increases public access to, and participation in, the facility and/or activity.  The construction of new Parks, Forestry and Recreation facilities and amenities are designed to incorporate the council-approved "City of Toronto Accessibility Design Guidelines" (ADG) and the Ontario Disabilities Act (ODA) to optimize independent access to persons with disabilities and to improve access for all.  13. Will the project extend the life of the asset?  If yes, describe how the project will extend the life of the infrastructure.  This is a new facility and will be maintained in the future as part of the state of good repair program in order to get the maximum life expectancy this facility is able to provide.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                                     | 45. | The construction of new Parks, Forestry and Recreation facilities and amenities are designed to incorporate the council-approved "City of Toronto Accessibility Design Guidelines" (ADG) and the Ontario Disabilities Act (ODA) to optimize independent access to persons with disabilities and to improve access for all.  13. Will the project extend the life of the asset?  If yes, describe how the project will extend the life of the infrastructure.  This is a new facility and will be maintained in the future as part of the state of good repair program in order to get the maximum life expectancy this facility is able to provide.  14. Will the project have a positive impact on public health and safety?  Yes No                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | 12. Will the project improve accessibility to the | If yes, describe how the project will extend the life of the infrastructure.  This is a new facility and will be maintained in the future as part of the state of good repair program in order to get the maximum life expectancy this facility is able to provide.  14. Will the project have a positive impact on public health and safety?  Yes No Please note the federal and provincial governments can each fund up to one third of a project's total eligible cost up to a maximum of \$1 million each per project.

# PART E: Attestation

- 1. I warrant that, to the best of my knowledge, Total Eligible Costs reported in the Funding section of this application are Eligible Costs under the RInC Program in Ontario and Ontario REC as defined in the application guidelines.
- 2. I warrant that, to the best of my knowledge, all information contained in this application is true and accurate.
- 3. I warrant that this project would not be otherwise constructed by March 31, 2011, without the federal and provincial funding requested.
- 4. I understand that:
  - a) Funding under the RInC Program in Ontario and Ontario REC for this project has not been approved;
  - b) all costs incurred before federal and provincial approval and after March 31, 2011, are ineligible;
  - c) the project is subject to an endorsement as described in the application guidelines and the signing of a contribution agreement in accordance with the Program Terms and Conditions

I, Michael Schreiner (name) Manager, Construction Management / Capital Projects (title), am clearly authorized to bind the proponent and attest all information above is true and complete.

# PART E: Attestation

- I warrant that, to the best of my knowledge, Total Eligible Costs reported in the Funding section of this application are Eligible Costs under the RInC Program in Ontario and Ontario REC as defined in the application guidelines.
- 2. I warrant that, to the best of my knowledge, all information contained in this application is true and accurate.
- 3. I warrant that this project would not be otherwise constructed by March 31, 2011, without the federal and provincial funding requested.
- 4. I understand that:
  - a) Funding under the RInC Program in Ontario and Ontario REC for this project has not been approved;
  - b) all costs incurred before federal and provincial approval and after March 31, 2011, are ineligible;
  - c) the project is subject to an endorsement as described in the application guidelines and the signing of a contribution agreement in accordance with the Program Terms and Conditions
- I, Michael Schreiner (name) Manager, Construction Management / Capital Projects (title), am clearly authorized to bind the proponent and attest all information above is true and complete.

<sup>\*</sup> Please note the federal and provincial governments can each fund up to one third of a project's total eligible cost up to a maximum of \$1 million each per project.

# PART E: Attestation

- I warrant that, to the best of my knowledge, Total Eligible Costs reported in the Funding section of this application are Eligible Costs under the RInC Program in Ontario and Ontario REC as defined in the application guidelines.
- 2. I warrant that, to the best of my knowledge, all information contained in this application is true and accurate.
- 3. I warrant that this project would not be otherwise constructed by March 31, 2011, without the federal and provincial funding requested.
- 4. I understand that:
  - a) Funding under the RInC Program in Ontario and Ontario REC for this project has not been approved;
  - b) all costs incurred before federal and provincial approval and after March 31, 2011, are ineligible;
  - c) the project is subject to an endorsement as described in the application guidelines and the signing of a contribution agreement in accordance with the Program Terms and Conditions

I, Michael Schreiner (name) Manager, Construction Management / Capital Projects (title), am clearly authorized to bind the proponent and attest all information above is true and complete.

| SERVICE IMPROVEMENT AND ENHANCEMENT - This project is part of a long-term city-wide initiative to maintain playground inventory.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | ect will replace the cu<br>ctures that will provid               | rrent low play value/le<br>e greater physical cha                                                               | illenges and   |  |  |  |  |  |
| 11. Will the project improve the energy efficiency of the asset?  Yes No If yes, describe how the project will have a positive impact on the environment by reducing energy consumption, water consumption and/or waste.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                  |                                                                                                                 |                |  |  |  |  |  |
| This service improvement project is not related to energy effici                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | ency.                                                            |                                                                                                                 |                |  |  |  |  |  |
| 12. Will the project improve accessibility to the asset?  Yes No I If yes, describe how the project increases public access to, and participation in, the facility and/or activity.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                                                                  |                                                                                                                 |                |  |  |  |  |  |
| The construction of new Parks, Forestry and Recreation facilities and amenities are designed to incorporate the council-approved "City of Toronto Accessibility Design Guidelines" (ADG) and the Ontario Disabilities Act (ODA) to optimize independent access to persons with disabilities and to improve access for all.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                                                                  |                                                                                                                 |                |  |  |  |  |  |
| 13. Will the project extend the life of the asset? If yes, describe how the project will extend the life of the i This is a new facility and will be maintained in the future a                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | nfrastructure.                                                   |                                                                                                                 | es No 🗆        |  |  |  |  |  |

Proposed cash flow profile of provincial 2009-2010 \$33,000 2010-2011 \$0 Ontario REC funding

\* Please note the federal and provincial governments can each fund up to one third of a project's total eligible cost up to a maximum of \$1 million each per project.

### PART E: Attestation

- 1. I warrant that, to the best of my knowledge, Total Eligible Costs reported in the Funding section of this application are Eligible Costs under the RInC Program in Ontario and Ontario REC as defined in the application guidelines.
- 2. I warrant that, to the best of my knowledge, all information contained in this application is true and accurate.
- 3. I warrant that this project would not be otherwise constructed by March 31, 2011, without the federal and provincial funding requested.
- 4. I understand that:
  - a) Funding under the RInC Program in Ontario and Ontario REC for this project has not been approved;
  - b) all costs incurred before federal and provincial approval and after March 31, 2011, are ineligible;
  - c) the project is subject to an endorsement as described in the application guidelines and the signing of a contribution agreement in accordance with the Program Terms and Conditions
- I, Michael Schreiner (name) Manager, Construction Management / Capital Projects (title), am clearly authorized to bind the proponent and attest all information above is true and complete.

<sup>\*</sup> Please note the federal and provincial governments can each fund up to one third of a project's total eligible cost up to a maximum of \$1 million each per project.

#### PART E: Attestation

- I warrant that, to the best of my knowledge, Total Eligible Costs reported in the Funding section of this application are Eligible Costs under the RInC Program in Ontario and Ontario REC as defined in the application guidelines.
- 2. I warrant that, to the best of my knowledge, all information contained in this application is true and accurate.
- 3. I warrant that this project would not be otherwise constructed by March 31, 2011, without the federal and provincial funding requested.
- 4. I understand that:
  - a) Funding under the RInC Program in Ontario and Ontario REC for this project has not been approved;
  - b) all costs incurred before federal and provincial approval and after March 31, 2011, are ineligible;
  - c) the project is subject to an endorsement as described in the application guidelines and the signing of a contribution agreement in accordance with the Program Terms and Conditions

I, Michael Schreiner (name) Manager, Construction Management / Capital Projects (title), am clearly authorized to bind the proponent and attest all information above is true and complete.

<sup>\*</sup> Please note the federal and provincial governments can each fund up to one third of a project's total eligible cost up to a maximum of \$1 million each per project.

#### PART E: Attestation

- I warrant that, to the best of my knowledge, Total Eligible Costs reported in the Funding section of this application are Eligible Costs under the RInC Program in Ontario and Ontario REC as defined in the application guidelines.
- 2. I warrant that, to the best of my knowledge, all information contained in this application is true and accurate.
- 3. I warrant that this project would not be otherwise constructed by March 31, 2011, without the federal and provincial funding requested.
- 4. I understand that:
  - a) Funding under the RInC Program in Ontario and Ontario REC for this project has not been approved;
  - b) all costs incurred before federal and provincial approval and after March 31, 2011, are ineligible;
  - c) the project is subject to an endorsement as described in the application guidelines and the signing of a contribution agreement in accordance with the Program Terms and Conditions
- I, Michael Schreiner (name) Manager, Construction Management / Capital Projects (title), am clearly authorized to bind the proponent and attest all information above is true and complete.

<sup>\*</sup> Please note the federal and provincial governments can each fund up to one third of a project's total eligible cost up to a maximum of \$1 million each per project.

#### PART E: Attestation

- I warrant that, to the best of my knowledge, Total Eligible Costs reported in the Funding section of this application are Eligible Costs under the RInC Program in Ontario and Ontario REC as defined in the application guidelines.
- 2. I warrant that, to the best of my knowledge, all information contained in this application is true and accurate.
- 3. I warrant that this project would not be otherwise constructed by March 31, 2011, without the federal and provincial funding requested.
- 4. I understand that:
  - a) Funding under the RInC Program in Ontario and Ontario REC for this project has not been approved;
  - b) all costs incurred before federal and provincial approval and after March 31, 2011, are ineligible;
  - c) the project is subject to an endorsement as described in the application guidelines and the signing of a contribution agreement in accordance with the Program Terms and Conditions
- I, Michael Schreiner (name) Manager, Construction Management / Capital Projects (title), am clearly authorized to bind the proponent and attest all information above is true and complete.

<sup>\*</sup> Please note the federal and provincial governments can each fund up to one third of a project's total eligible cost up to a maximum of \$1 million each per project.

#### PART E: Attestation

- I warrant that, to the best of my knowledge, Total Eligible Costs reported in the Funding section of this application are Eligible Costs under the RInC Program in Ontario and Ontario REC as defined in the application guidelines.
- 2. I warrant that, to the best of my knowledge, all information contained in this application is true and accurate.
- I warrant that this project would not be otherwise constructed by March 31, 2011, without the federal and provincial funding requested.
- 4. I understand that:
  - a) Funding under the RInC Program in Ontario and Ontario REC for this project has not been approved;
  - b) all costs incurred before federal and provincial approval and after March 31, 2011, are ineligible;
  - c) the project is subject to an endorsement as described in the application guidelines and the signing of a contribution agreement in accordance with the Program Terms and Conditions
- I, Michael Schreiner (name) Manager, Construction Management / Capital Projects (title), am clearly authorized to bind the proponent and attest all information above is true and complete.
