

Clean Train Coalition presents a
Diesel Train
Information Evening

Tuesday June 1st, 7pm

Annette Street Public Library

145 Annette Street, Toronto

Are you aware that Metrolinx plan to run hundreds of polluting, diesel-powered trains through this neighbourhood? Are you concerned about air quality and healthy neighbourhoods?

Come meet Members of the Clean Train Coalition, the grassroots group demanding that this rail line **GO ELECTRIC**.

Learn about the effects of diesel pollution on children's health, and the impact diesel trains would have on local parks and neighbourhoods along the corridor. Hear why electric rail is the right way to go and how you can help make that solution a reality.

Join us! Be part of the solution!
Clean Transit is possible!

Annette Street Branch
